DEPARTAMENTO: EPIDEMIOLOGIA		**PROFESSOR: GUILHERME LOUREIRO WERNECK**	
ANO:	**2022**	**CÓDIGO:**	**IMS017234 (ME)** **IMS018288(DO)**
SEMESTRE:	**2**	**CARGA HORÁRIA / CRÉDITOS:**	**30H - 2 CRÉDITOS**
INÍCIO (dia/mês):	**02/09**	**DIA DA SEMANA/HORÁRIO**	**6a feira (9-12h)**
TÉRMINO (dia/mês):	**18/11**		

DISCIPLINA

Tópicos Especiais em Epidemiologia II

Tema: Epidemiologia e controle de doenças tropicais negligenciadas

EMENTA E PROGRAMA DETALHADOS:

Apresenta-se e discute-se as bases teóricas e metodológicas para o desenvolvimento de pesquisas que busquem avaliar os diferentes aspectos relacionados à epidemiologia doenças tropicais negligenciadas, incluindo identificação de fatores de risco e avaliação de estratégias de controle

A disciplina aprofunda o conhecimento teórico sobre os seguintes temas de epidemiologia e controle das doenças tropicais negligenciadas no Brasil e no mundo:

Definições e listas das doenças tropicais negligenciadas

Carga de doença e distribuição geográfica,

Ciclos de transmissão,

Parasito-vetor-hospedeiro-reservatório,

Determinantes socioambientais de sua distribuição,

Processo de urbanização,

Fatores de risco,

Princípios teóricos para o controle,

Definição de áreas de risco.
